INTELLIGENCE SUMMARY

The business generated **R2,118,822 excl VAT** over the last 30 days across 3 stores and Shopify.

Centurion dominates at 65% of store revenue (R1,337,591), with 2,236 transactions at an average basket of R598. This is your engine — it's running well.

Edenvale (19%, R382,354) is your second store but has the lowest average basket at R410 vs Centurion's R598. There's a R188 basket gap between your strongest and weakest store — that's a ranging and upsell problem, not a footfall problem.

Glen Village (16%, R336,834) is the smallest but has a R461 avg basket — stronger than Edenvale per transaction. Fewer customers, but they're spending more per visit.

Online is 2.9% of combined revenue — R62,043 from 92 orders at R674 AOV. The channel is small but the AOV is strong. Discount rate at 16.3% is elevated and needs watching.

INTELLIGENCE SUMMARY

You have **R3,318,456 locked in stock at cost** — that money is either working for you or sitting idle.

The dead weight: R142,746 is tied up in 50 products that keep getting reordered despite not moving. The worst offenders — MAG 7/87 60'S (10x orders, 86 units), 1L GUT RAWBIOTICS (4x, 55 units), FLORISH SPORE PROBIOTIC 60C (5x, 23 units) — are a PAR level problem. Someone is reordering on autopilot. Stop these until stock clears.

The opportunity: 40 products have margin ≥40% and are well-stocked. These are your profit drivers sitting on the shelf. The top 5 average 49.5% margin. Put them front-of-shelf, run a staff push, and feature them online.

The risk: 50 products are at ≤5 units. 50 of those are high-value (>R500 excl VAT each). If you sell one more unit and can't reorder fast, you lose the sale and the customer. Some of these have no PO ever placed — they're being forgotten.

INTELLIGENCE SUMMARY

You placed **748 orders worth R4,016,315 excl VAT** since January. Overall fill rate is **92.0%** — meaning R319,332 in ordered stock has not arrived.

20 suppliers are below 80% fill rate and together represent significant outstanding value. Your top 3 suppliers by spend are DS INTERNATIONAL (NOW) (R451,204, 69.2% fill), NATROCEUTICS SA (PTY) LTD (R333,568, 73.7% fill), and LONGEVITY SUPPLEMENTS PTY LTD (OUTCROP) WILLOW WELLNESS (R242,098, 92.5% fill).

DSI at 69% fill on R451,204 ordered is the biggest concern — that's your largest supplier and they're leaving R139,873 undelivered. Either they're backordering, shipping partial, or there's an admin issue on invoice matching.

40 suppliers are over-delivering vs PO value — you're receiving more than you ordered. This is where surprise overstock comes from. Review GRV sign-off process.

INTELLIGENCE SUMMARY

92 orders, R62,043 excl VAT, R674 AOV over 30 days. The channel is small relative to stores but the basket is strong.

Your top online product is DELFRAN - Pcositol - 30 Sachets at R3,224 — 6 units. The top 5 collectively account for R12,013 or 19% of online revenue. That's heavy concentration — healthy if those products are well-stocked, risky if they're not.

Discount rate at 16.3% means roughly 1 in 6 orders uses a discount code. That's not catastrophic but it's trending in the wrong direction. It suggests either price sensitivity or promotion dependence. Watch this weekly.

The gap: Online is 3% of combined revenue. For a health supplement business this should be 15-20%+ with the right merchandising, SEO, and email strategy. There's significant headroom.

ONLINE GROWTH OPPORTUNITY

Online contributes **2.9%** of combined revenue. For a health supplement business, the benchmark is **15–20%**. Closing the gap to 15% would mean an additional **R255 780** in monthly online revenue. Key levers: SEO, email marketing, subscription bundles, and improving the product page conversion rate.

EMAIL INTELLIGENCE SUMMARY

Your Klaviyo account has **4,812 subscribers** (+287 in 30 days, 6.3% growth). Email attributed revenue is **R18,612 excl VAT** — that's 30% of your online revenue coming from email.

Abandoned Cart is your money machine — R6,830 from just 312 emails at a 5.8% conversion rate. This flow alone drives 37% of all email revenue. If you're not A/B testing the subject line and offer, start now.

Welcome Series is strong at 52% open rate and R4,216 revenue. But you're missing two critical flows: **Browse Abandonment and Replenishment Reminders** are still in draft. For a supplement business where customers buy on a 30-60 day cycle, replenishment emails are pure margin — no discount needed, just a timely nudge.

Your best campaign was the DELFRAN Pcositol Launch — 44.8% open rate, 7.2% click rate, R4,180 revenue. Product launches with urgency copy outperform everything else. Do more of these.

731 subscribers have never purchased. That's 15% of your list sitting idle. A dedicated conversion sequence with a first-purchase incentive could convert 3-5% of them — that's R11,000-R18,000 in new revenue.

The Klaviyo MCP server is configured in this project. Once you add your API key to `.mcp.json`, Claude can create campaigns, design emails, and schedule sends directly from this environment.

AI-Suggested Campaigns

Based on product data, segments, and seasonal trends

Product Launch: Top Seller Spotlight — High Priority

Campaign · Email Engaged (opened 3+ in 30d)

Feature DELFRAN - Pcositol - 30 Sachets with social proof and a limited-time bundle offer. Product launches drive your highest open rates (44.8%).

Replenishment Reminder Flow — High Priority

Automated Flow · Supplement Subscribers + Past Purchasers

Trigger 30/60/90 day reminders based on purchase date. Supplements are consumable — this flow is pure margin with no discount needed. Currently in draft.

First-Purchase Conversion Series — High Priority

Automated Flow · New Subscribers (no purchase) — 731 contacts

3-email sequence: brand story → bestseller showcase → 10% first-order incentive. Converting 3-5% = R11K-R18K new revenue.

Browse Abandonment Recovery — Medium Priority

Automated Flow · All subscribers who browse without buying

Trigger email 2 hours after a product page view with no add-to-cart. Include product image, reviews, and "still thinking about it?" copy. Currently in draft.

VIP Exclusive Early Access — Medium Priority

Campaign · VIP Customers (3+ orders) — 342 contacts

Give your 342 VIPs early access to new products or exclusive bundles. This segment has a 52.4% open rate and R892 AOV — they are your most engaged buyers.

Win-Back: "We Miss You" + Incentive — Medium Priority

Campaign · Lapsed (90+ days) — 876 contacts

Current winback flow converts at 1.4%. Test a stronger offer (15% off + free shipping) with urgency. 876 lapsed customers represent significant recoverable revenue.

INTELLIGENCE SUMMARY

Three things need your attention today.

1. Reorder FIRE BOWL 200MM — 50 high-value products are at ≤5 units with no or stale POs. Each one is a missed sale at full margin.

2. **Stop reordering MAG 7/87 60'S** — you've ordered it 10 times this year and have 86 units on the shelf. Whoever controls the PAR levels needs to see this data.

3. **DSI** — your largest supplier at R451,204 ordered is only delivering at 69.2%. Get on a call with them this week. Either the relationship needs managing or the ordering process needs fixing.
